DR. ALLEN JACOBS MEMORIAL

Dr. Allen Jacobs was a passionate educator, mentor and family man. Dr. Jacobs trained at Kirksville College of Osteopathic Medicine and he began his career at Michigan State University as an assistant professor of anatomy. It was a position he loved, and in turn, a field of study his students grew to love. Over his career, Dr. Jacobs became a nationally recognized expert in the field of sports medicine. He served as team physician for MSU's baseball team and women's gymnastics team. He also was team physician for East Lansing High School and the Lansing Lugnuts baseball team.

At the time of his sudden death in 2001, at the age of 59, Dr. Jacobs was Dean of the Michigan State University of Osteopathic Medicine.

The Allen Jacobs Memorial Lecture has been held since 2003 to help us remember his love of anatomy, teaching and osteopathic medicine.
