

**The American Osteopathic Academy of Sports Medicine (AOASM) will present "Sports Medicine: A Pathway to Treating All Patients."**

**President:** Kate Quinn, DO, FAOASM

**Program Chair:** Warren Bodine, DO, FAOASM

The program includes sports medicine topics relevant to physicians in all specialties highlighting the dual clinical missions of promoting exercise as medicine for all people and providing sports medicine care to all people. We will provide an in-depth review of common musculoskeletal conditions including diagnostic evaluation, management, and return-to-play considerations across pediatric, adolescent, adult, geriatric, and disabled athlete populations. The program will also explore new ideas in clinical practice, apply evidence-based research, and connect with diverse patients. All topics will highlight the osteopathic approach to evaluation and management.

**Registration is open!**
